FROM: C. Donald Lundergan, SNLA/0310

SUBJECT: April 30th Meeting at Sandia National Laboratories

The purpose of this letter is to confirm our previous discussions regarding a meeting to be held at Sandia National Laboratories on April 30, 1985. The subjects of the meeting are: advanced microwave techniques for the collection of intelligence; the 46C system; and sensors. There will be a review of the progress to date, including demonstrations of the concept and a presentation on the results of a study on mobile missile tracking.

Please send SI/TK and L accesses via the appropriate channels. If you have any questions please call me on 505/846-0400.

The meeting will be held in the main conference room, building 868, Sandia, Albuquerque, NM, starting at 0900.

Attached are maps of the areas of interest, a tentative agenda for the meeting, and a list of attendees.
